Walk Summary:	<p>This walk will follow the Mitchell River from Billy Goat Bend and the Amphitheatre upstream to a point opposite Jurgenson Point where Sandy Creek enters the Mitchell River. Plenty of photo opportunities with great rapids, rocky bluffs on the Eastern side and rainforest gullies on the Western side. We will have lunch at Jurgenson Point where it opens out to a clear stoney area, then retrace our steps. Most of this walk is on a well made track with some steep climbs and descents where we will take it steady, but reasonable level of fitness is still required.</p> <p style="text-align: center;">Please register with Walk Leader before the day of the walk</p>
