Walk Summary:	<p>This walk follows the Mitchell River from the Angusvale campground down stream to Jurgenson Point, opposite where Sandy Creek enters the Mitchell River. We start off walking right beside the Mitchell River, then amongst some old and twisted trees that envelop the track. From here we climb steadily higher with great views of rapids on the river below, rocky bluffs on the Eastern side, at times dropping into shady gullies. The walk follows the Western side of the river, great opportunities for photographs. Lunch will be at Jurgenson Point at a large open area on the river edge. A truly lovely walk.</p> <p>Registration with the Walk Leader, before the day of the walk, is required for all walks. Preference is to register via email.</p>
